WEBSITE DEVELOPMENT PROPOSAL

## 1. Executive Summary

Compassionate Community Connection (CCC) requires a modern, user-centric website to expand its reach, streamline volunteer coordination, and increase donor engagement. Currently, the organization lacks a cohesive digital presence, relying on social media and word-of-mouth. This proposal outlines the development of a responsive, secure, and scalable website designed to serve as the central hub for CCC's operations, storytelling, and community building.

## 2. Background & History

**Compassionate Community Connection** was founded in **2018** in **Austin, Texas** by **Maria Sanchez and Dr. James O'Connell**.

In the wake of a city-wide housing crisis, Maria and James recognized that social services were operating in silos. They envisioned an organization that didn't just provide services, but actively connected neighbors to neighbors. Starting as a small grassroots effort operating out of a church basement, CCC began by matching volunteers with elderly

residents for grocery delivery and companionship. Over the last eight years, the organization has grown to serve over 5,000 individuals annually, offering mental health first aid, housing navigation, and a robust "Neighbor-to-Neighbor" support network. The **purpose** of CCC is to bridge the gap between systemic social services and the human need for belonging and immediate, compassionate support.

### 3. Mission & Vision Statements

- **Mission:** To foster a resilient community by connecting neighbors in need with neighbors who care, providing a bridge to resources, friendship, and dignity for all.
- **Vision:** A world where no individual faces hardship alone; where community connection is the first response to crisis and the foundation of lasting well-being.

### 4. Target Audience

| Audience          | Needs                                                               |
|-------------------|---------------------------------------------------------------------|
| Neighbors in Need | Easy access to services, simple navigation, privacy                 |
| Volunteers        | Clear sign-up process, event calendar, hour logging                 |
| Donors & Partners | Secure donations, financial transparency, sponsorship opportunities |

## 5. Website Goals & Objectives (KPIs)

| Goal                                 | Objective                            | KPI                                                         |
|--------------------------------------|--------------------------------------|-------------------------------------------------------------|
| <b>Increase Volunteer Engagement</b> | Simplify volunteer onboarding        | 40% increase in volunteer applications within 6 months      |
| <b>Boost Fundraising</b>             | Provide seamless donation experience | 25% increase in online recurring donations                  |
| <b>Enhance Service Accessibility</b> | Make help easy to find               | 30% decrease in contact form submissions for basic services |
| <b>Storytelling &amp; Trust</b>      | Showcase impact through stories      | Average session duration >2 minutes                         |

## 6. Current Website Analysis

- **Not mobile-responsive** – poor user experience on smartphones
- **Poor navigation** – critical information is difficult to find
- **Low conversion** – donation button is hidden, volunteer form is lengthy
- **No CRM integration** – manual data entry for staff

## 7. Proposed Features & Functionality

| Feature            | Purpose                                                                                 |
|--------------------|-----------------------------------------------------------------------------------------|
| Resource Directory | Searchable database of services (food, housing, mental health) by category and location |
| Volunteer Portal   | Shift sign-ups, hour logging, verification letters                                      |
| Donation System    | Secure recurring donations with automated tax receipts                                  |
| Bilingual Support  | Spanish translation toggle                                                              |
| Interactive Map    | Locations of pantries, community hubs, and events                                       |
| CRM Integration    | Sync donor and volunteer data with nonprofit CRM                                        |
| Events Calendar    | Upcoming volunteer opportunities and community events                                   |

## 8. Design Approach

- **Color Scheme:** Teal (trust) and Coral (action) on a clean neutral background
- **Layout:** Mobile-first, responsive design
- **Imagery:** Authentic photography of real volunteers and community members

## 9. Low-Fidelity Wireframe

| Phase 3 | Development                   | Week 5-8   |
| Phase 4 | Testing & QA                  | Week 9     |
| Phase 5 | Training & Launch             | Week 10    |
| Phase 6 | Post-Launch Support           | Week 11-14 |

**Total Timeline:** 3.5 Months

## 13. Budget

| Item                          | Cost (ZAR)       |
|-------------------------------|------------------|
| Strategy & UX                 | R 46,250         |
| UI Design                     | R 64,750         |
| Development                   | R 148,000        |
| Content Migration             | R 27,750         |
| QA & Training                 | R 18,500         |
| Hosting & Domain (Year 1)     | R 11,100         |
| <b>Total One-Time Setup</b>   | <b>R 316,350</b> |
| Annual Maintenance (Retainer) | R 44,400/year    |

## 14. Conclusion

A new website for Compassionate Community Connection is a critical tool for scaling impact. By investing in this platform, CCC will be able to serve more neighbors, manage volunteers efficiently, and secure the funding necessary to continue its vital work in the community.

We look forward to partnering with CCC to bring this vision to life.
