

Sithole Family Retail Website

Overview

The Sithole Family Retail Website is a simple, user-friendly online platform designed to showcase products and services offered by the store. It allows customers to explore items, learn about the business, and make enquiries. This project was developed using pure HTML (and optionally CSS) to demonstrate web development fundamentals.

Features

- 1 Homepage with introduction and featured sections
- 2 About Page describing the business
- 3 Products Page displaying items
- 4 Enquiry Page for customer questions
- 5 Contact Page with a form
- 6 Embedded Google Map
- 7 Navigation bar linking all pages
- 8 Footer with store info and policies

Website Navigation Structure

- 1 Homepage links to About, Products, Enquiry, Contact (Shop Now → Products)
- 2 About Page links to Home, Products, Enquiry, Contact
- 3 Products Page links to Home, About, Enquiry, Contact
